

Matthew E. Struble

matt@struble.dev | <https://struble.dev>

Skills

Languages : Python, C++, C, SQL, Java, Bash, LaTeX
Packages : TensorFlow, Keras, OpenCV, NumPy, Scikit-Learn, Pandas, Matplotlib
Applications : AWS, Kubeflow, Docker, Jenkins, Airflow, Jupyter, MATLAB, Git, Neovim

Experience

Lead Software Engineer - AI/ML

Feb 2021 - Present

Nike

Boston, MA

- Planned, designed, and performed, multiple cross-team software migrations into AWS SageMaker.
- Optimized PySpark pipelines, drastically reducing model training and inference time, and improving overall model accuracy.
- Developed a standardized Python package for AWS, logging, and test reliability, to reduce Data Scientist overhead within AWS environments.
- Led the initiative to update repositories and defined engineering best practices, reducing development time and increasing CI/CD reliability within Jenkins.
- Onboarded and supported offshore team by running agile ceremonies and creating documentation on engineering standardization, expectations, and software redesign.
- Designed, and implemented, transition from batch file processing to a new API endpoint for forecasting models.

Mission Critical Software Engineer

Mar 2019 - Jun 2020

(Under Contract To) Draper

Cambridge, MA

- Developed data analytics tools with machine learning algorithms to assist engineers with hardware analysis.
- Processed system data, sensor data, and real time flight data in order to improve GNC algorithms.
- Took on responsibilities of Scrum Master and led CI/CD initiative.

Senior Software Engineer

Oct 2018 - Mar 2019

(Under Contract To) Raytheon

Tewksbury, MA

- Implemented signal processing algorithms, and time critical control functions, involved in direct control of sensor systems.

Projects

Deep Learning Photo Aesthetics

Researched modern classification models, and developed supporting tools, in order to create a novel deep learning model to classify photo aesthetics.

Heineken AR Cheers Campaign

Created an object detection model on AWS for an adaptive AR experience.

Analyzing Climate Change Stance Through Twitter Data

Tested multiple NLP algorithms like bag of words, ensemble, and BERT, in an attempt to understand and visualize Americans' views of climate change over time.

Education

Georgia Institute of Technology

Atlanta, GA

Master of Science, Computer Science |

Machine Learning, Computational Perception and Robotics

Champlain College

Burlington, VT

Bachelor of Science, Game Programming *Minor*: Mathematics
